SUPER MINIS SNOWBOARD

(from 3 Years, lessons and rental)

Yes, children can learn to snowboard in this age. As first devise or as alternative of skiing both is possible, as long as they are keen to learn to snowboard. Different techniques are needed to teach young kids, with a more hands-on approach to help them with coordination and balance

3 & 4 years old: In this age we recommend private lessons with an instructor for beginners or shared private lessons.

5 years & older: Depending on the level we offer group lessons with max. 2-3 children in the same level. For best learning results we recommend as well for this age private or shared private lessons with the same level.

We will give you advice on what we suggest best for your child.

Duration recommendation: from 1h and more (incl. toilet- and tea break)

Price: from CHF 85.— (1-2 pax)

Rental: We rent kids snowboards from 70cm & kids shoes from shoe size 24 in our shop in Saas-Fee.

- Snowboard incl. binding: from CHF 19.—
- Snowboard shoes: from CHF 13.—
